AUTHOR INDEX

Ambraseys, N.N. (London, Great Britain)
Some characteristic features of the Anatolian fault zone. 143
Arsovsky, M. and Hadžievsky, D. (Skopje, Yugoslavia)
Correlation between neotectonics and the seismicity of Macedonia 129
Balakrishna, S. and Gowd, T.N. (Hyderabad, India)
Role of fluid pressure in the mechanics of transcurrent faulting at Koyna (India) 301
Bayly, M.B. (Troy, N.Y., U.S.A.)
Viscosity and anisotropy estimates from measurements on chevron folds 459
Beloussov, V.V. (Moscow, U.S.S.R.)
Against the hypothesis of ocean-floor spreading 489
Boulanger, Yu.D., Pevnev, A.K. and Enman, V.B. (Moscow, U.S.S.R.)
On variations of recent crustal movements on Garm and Nimichi polygons 103
Brookfield, M.E. (Reading, Great Britain)
Eustatic changes of sea-level and orogeny in the Jurassic. 347
Byerlee, J.D. (Menlo Park, Calif., U.S.A.)
The mechanics of stick-slip. 475
Cheh Pan (St. Louis, Mo., U.S.A.)
The gravitational factor from mid-continental body tides and its statistical analysis 15
Closs, H. (Hannover, West Germany)
Book review of "Proceedings of the Eighth Assembly of the European Seismological Commission" by E. Bisztricsány (Editor). 395
Currie, K.L. and Ferguson, J. (Ottawa, Ont., Canada)
The mechanism of intrusion of lamprophyre dikes indicated by "offsetting" of dikes. 525
Dolbilkina, N.A., see Fedotov, S.A. et al.
Eaton, J.P., Lee, W.H.K. and Pakiser, L.C. (Menlo Park, Calif., U.S.A.)
Use of microearthquakes in the study of earthquake generation along the San Andreas fault in central California. 259
Enman, V.B., see Boulanger, Yu.D. et al.
Evison, F.F. (Wellington, New Zealand)
Seismogenesis. 113
Fairbridge, R.W. (New York, N.Y., U.S.A.)
Book review of A Central American Symposium (no title) Memoir 11, American Association of Petroleum Geologists 82
Fedotov, S.A., Dolbilkina, N.A., Morozov, V.N., Myachkin, V.I., Preobrazensky, V.B. and Sobolev, G.A. (Moscow, U.S.S.R.)
Investigation on earthquake prediction in Kamchatka. 249
Ferguson, J., see Currie, K.L. and Ferguson, J.
Ghosh, S.K. (Calcutta, India)
A theoretical study of intersecting fold patterns 559
Glikson, A.Y. (Canberra, A.C.T., Australia)
Geosynclinal evolution and geochemical affinities of Early Precambrian systems 397
Gnibidenko, H.S. (Novo-Alexandrovsk, Sakhalin, U.S.S.R.)
On the basement of the northwest sector of the Pacific Belt. 513
Gnibidenko, H.S. (Novo-Alexandrovsk, Sakhalin, U.S.S.R.) and Shaskin, K.S. (Vladivostok, U.S.S.R.)
Basic principles of the geosynclinal theory. 5
Gowd, T.N., see Balkrishna, S. and Gowd, T.N.
Hadžievsky, D., see Arsovsky, M. and Hadžievsky, D.
Hagiwara, T. (Tokyo, Japan)
Symposium on earthquake mechanics: introductory remarks 101
Hamilton, R.M., see Healy, J.H. et al.

Healy, J.H., Hamilton, R.M. and Raleigh, C.B. (Menlo Park, Calif, U.S.A.)
Earthquakes induced by fluid injection and explosion. 205
Hospers, J. (Amsterdam, The Netherlands)
Book review of "Physik der festen Erde" by L.Egyed 77
Kanamori, H. (Tokyo, Japan)
Recent developments in earthquake prediction research in Japan 291
Karmaleyeva, R.M., see Latynina, L.A. and Karmaleyeva, R.M.
Latynina, L.A. and Karmaleyeva, R.M. (Moscow, U.S.S.R.)
On certain anomalies in the variations of crustal strains before strong earthquakes 239
Lee, W.H.K., see Eaton, J.P. et al.
Lopez Arroyo, A., see Udías, A. and Lopez Arroyo, A.
Mac Gillavry, H.J. (Amsterdam, The Netherlands)
Turbidite detritus and geosyncline history 365
Morozov, V.N., see Fedotov, S.A. et al.
Myachkin, V.I., see Fedotov, S.A. et al.
Nagata, T. (Tokyo, Japan)
Basic magnetic properties of rocks under the effects of mechanical stresses 167
Oliver, J. (Palisades, N.Y., U.S.A.)
Recent earthquake prediction research in the U.S.A.. 283
Pakiser, L.C., see Eaton, J.P. et al.
Pevnev, A.K., see Boulanger, Yu.D. et al.
Phinney, R.A. (Princeton, N.J., U.S.A.)
Book review of "Mathematical Aspects of Seismology" by M. Båth 85
Preobrazensky, V.B., see Fedotov, S.A. et al.
Raleigh, C.B., see Healy, J.H. et al.
Rikitake, T. (Tokyo, Japan)
Editorial (Special Issue: Earthquake Mechanics) 97
Rikitake, T. and Yamazaki, Y. (Tokyo, Japan)
Strain steps as observed by a resistivity variometer 197
Rothé, J.P. (Strasbourg, France)
Séismes artificels (Man-made earthquakes) 215
Schwerdtner, W.M. (Toronto, Ont., Canada)
Distribution of longitudinal finite strain in lenticular boudins and bending folds 537
Shashkin, K.S., see Gnibidenko, H.S. and Shashkin, K.S.
Slobodskoy, R.M. (Novosibirsk, U.S.S.R.)
Origin of ptygmatic veins in the contact aureole of granitoid batholiths (Altai region, U.S.S.R.) 447
Sobolev, G.A., see Fedotov, S.A. et al.
Talbot, C.J. (Dundee, Great Britain)
The minimum strain ellipsoid using deformed quartz veins 47
Teisseyre, R. (Warsaw, Poland)
Crack formation and energy release caused by the concentration of dislocations along fault planes 547
Udías, A. and Lopez Arroyo, A. (Madrid, Spain)
Body and surface wave study of source parameters of the March 15, 1961 Spanish earthquake 323
Walcott, R.J. (Ottawa, Ont., Canada)
Flexure of the lithosphere at Hawaii 435
Wallace, P. (London, Great Britain)
Book review of "The Geology of Western Europe" by M.G. Rutten. 487
Weber, F. (Leoben, Austria)
Book review of "Untersuchungen des Ozeanischen Erdkrustenaufbaus mit Hilfe der Dispersion von Erdbeben-Oberflächenwellen" by D. Hartke. . . 86
Yamazaki, Y., see Rikitake, T. and Yamazaki, Y.

SUBJECT INDEX

Africa
Geosynclinal evolution and geochemical affinities of Early Precambrian systems (A.Y. Glikson) . . . 397
Man-made earthquakes (J.P. Rothé) . . . 215

Australia
Geosynclinal evolution and geochemical affinities of Early Precambrian systems (A.Y. Glikson) . . . 397

Book reviews
American Association of Petroleum Geologists, A Central American Symposium (no title) . . . 82
M. Båth, "Mathematical Aspects of Seismology" . . . 85
E. Bisztricsány (Editor), "Proceedings of the Eighth Assembly of the European Seismological Commission" . . . 395
L. Egyed, "Physik der festen Erde" . . . 77
D. Hartke, "Untersuchungen des ozeanischen Erdkrustenaufbaus mit Hilfe der Dispersion von Erdbeben-Oberflächenwellen" . . . 86
M.G. Rutten, "The Geology of Western Europe" . . . 487

Boudins
Distribution of longitudinal finite strain in lenticular boudins and bending folds (W.M. Schwerdtner) . . . 537

Canadian Shield
Geosynclinal evolution and geochemical affinities of Early Precambrian systems (A.Y. Glikson) . . . 397

Chevron folds
Viscosity and anisotropy estimates from measurements on chevron folds (M.B. Bayly) . . . 459

Crack formation
Crack formation and energy release caused by the concentration of dislocations along fault planes (R. Teisseyre) . . . 547

Dikes
The mechanism of intrusion of lamprophyre dikes indicated by offsetting of dikes (K.L. Currie and J. Ferguson) . . . 525

Earthquake mechanics
Basic magnetic properties of rocks under the effects of mechanical stresses (T. Nagata) . . . 167
Correlation between neotectonics and the seismicity of Macedonia (M. Arsovsky and D. Hadžievsky) . . . 129
Earthquakes induced by fluid injection and explosion (J.H. Healy, R.M. Hamilton and C.B. Raleigh) . . . 205
Editorial: Special Issue on "Earthquake Mechanics" (T. Rikitake) . . . 97
Investigation on earthquake prediction in Kamchatka (S.A. Fedotov, N.A. Dolbilkina, V.N. Morozov, V.I. Myachkin, V.B. Preobrazensky and G.A. Sobolev) . . . 249
Man-made earthquakes (J.P. Rothé) . . . 215
On certain anomalies in the variations of crustal strains before strong earthquakes (L.A. Latynina and R.M. Karmaleyeva) . . . 239
On variations of recent crustal movements on Garm and Nimichi polygons (Yu.D. Boulanger, A.K. Pevnev and V.B. Enman) . . . 103

Recent developments in earthquake prediction research in Japan (H. Kanamori) . . . 291
Recent earthquake prediction research in the U.S.A. (J. Oliver) . . . 283
Role of fluid pressure in the mechanics of transcurrent faulting at Koyna (India) (S. Balakrishna and T.N. Gowd) . . . 301
Seismogenesis (F.F. Evison) . . . 113
Strain steps as observed by a resistivity variometer (T. Rikitake and Y. Yamazaki) . . . 197
Use of microearthquakes in the study of the mechanics of earthquake generation along the San Andreas fault in central California (J.P. Eaton, W.H.K. Lee and L.C. Pakiser) . . . 259

Earthquake prediction
Investigation on earthquake prediction in Kamchatka (S.A. Fedotov, N.A. Dolbilkina, V.N. Morozov, V.I. Myachkin, V.B. Preobrazensky and G.A. Sobolev) . . . 249
Recent developments in earthquake prediction research in Japan (H. Kanamori) . . . 291
Recent earthquake prediction research in the U.S.A. (J. Oliver) . . . 283

Earthquake studies
Body and surface wave study of source parameters of the March 15, 1964 Spanish earthquake (A. Udías and A. Lopez Arroyo) . . . 323

Experimental studies
Basic magnetic properties of rocks under the effects of mechanical stresses (T. Nagata) . . . 167
Recent developments in earthquake prediction research in Japan (H. Kanamori) . . . 291
The mechanics of stick-slip (J.D. Byerlee) . . . 475
Viscosity and anisotropy estimates from measurements on chevron folds (M.B. Bayly) . . . 459

Faults
Correlation between neotectonics and the seismicity of Macedonia (M. Arsovsky and D. Hadzievsky) . . . 129
Crack formation and energy release caused by the concentration of dislocations along fault planes (R. Teisseyre) . . . 547
Some characteristic features of the Anatolian fault zone (N.N. Ambraseys) . . . 143
Role of fluid pressure in the mechanics of transcurrent faulting at Koyna (India) (S. Balakrishna and T.N. Gowd) . . . 301
Use of microearthquakes in the study of the mechanics of earthquake generation along the San Andreas fault in central California (J.P. Eaton, W.H.K. Lee and L.C. Pakiser) . . . 259

Folds
A theoretical study of intersecting fold planes (S.K. Ghosh) . . . 559
Distribution of longitudinal finite strain in lenticular boudins and bending folds (W.M. Schwerdtner) . . . 537
Viscosity and anisotropy estimates from measurements on chevron folds (M.B. Bayly) . . . 459

Geosynclinal studies
Basic principles of the geosynclinal theory (H.S. Gnibidenko and K.S. Shashkin) . . . 5
Geosynclinal evolution and geochemical affinities of Early Precambrian systems (A.Y. Glikson) . . . 397

On the basement of the northwest sector of the Pacific Belt (H.S. Gnibidenko) 513
Turbidite detritus and geosyncline history (H.J Mac Gillavry) 365

Gravitational factor
The gravitational factor from mid-continental body tides and its statistical analysis (Cheh Pan) 15

India
Role of fluid pressure in the mechanics of transcurrent faulting at Koyna (India) (S. Balakrishna and T.N. Gowd). 301

Jurassic
Eustatic changes of sea-level and orogeny in the Jurassic (M.E. Brookfield) 347

Japan
Recent developments in earthquake prediction in Japan (H. Kanamori) . 291
Strain steps as observed by a resistivity variometer (T. Rikitake and Y. Yamazaki). 197

Man-made earthquakes
Earthquakes induced by fluid injection and explosion (J.H. Healy, R.M. Hamilton and C.B. Raleigh) 205
Man-made earthquakes (J.P. Rothé) 215

Minimum strain ellipsoid
The minimum strain ellipsoid using deformed quartz veins (C.J. Talbot) 47

Ocean-floor spreading
Against the hypothesis of ocean-floor spreading (V.V. Beloussov) 489

Orogenesis
Basic principles of the geosynclinal theory (H.S. Gnibidenko and K.S. Shashkin) 5
Eustatic changes of sea-level and orogeny in the Jurassic (M.E. Brookfield) 347
Geosynclinal evolution and geochemical affinities of Early Precambrian systems (A.Y. Glikson) 397
Turbidite detritus and geosyncline history (H.J. Mac Gillavry) 365

Pacific Belt
On the basement of the northwest sector of the Pacific Belt (H.S. Gnibidenko) 513

Precambrian
Geosynclinal evolution and geochemical affinities of Early Precambrian systems (A.Y. Glikson) 397

Spain
Body and surface wave study of source parameters of the March 15, 1964 Spanish earthquake (A. Udías and A. Lopez Arroyo) 323

Statistical studies
The gravitational factor from mid-continental body tides and its statistical analysis (Cheh Pan) 15

Stick slip
The mechanics of stick-slip (J.D. Byerlee). 475

Turkey
Some characteristic features of the Anatolian fault zone (N.N. Ambraseys) 143

U.S.A.
Earthquakes induced by fluid injection and explosion (J.H. Healy, R.M. Hamilton and C.B. Raleigh) 205
Flexure of the lithosphere at Hawaii (R.I. Walcott). 435
Recent earthquake prediction research in the U.S.A. (J. Oliver). 283
Use of microearthquakes in the study of the mechanics of earthquake generation along the San Andreas fault in central California (J.P. Eaton, W.H.K. Lee and L.C. Pakiser) 259

U.S.S.R.
Investigation on earthquake prediction in Kamchatka (S.A. Fedotov, N.A. Dolbilkina, V.N. Morozov, V.I. Myachkin, V.B. Preobrazensky and G.A. Sobolev) 249
On certain anomalies in the variations of crutal strains before strong earthquakes (L.A. Latynina and R.M. Karmaleyeva) 239
On variations of recent crustal movements on Garm and Nimichi polygons (Yu.D. Boulanger, A.K. Pevnev and V.B. Enman). 103
Origin of ptygmatic veins in the contact aureole of granitoid batholiths (Altai region, U.S.S.R.) (R.M. Slobodskoy) 447

Veins
Origin of ptygmatic veins in the contact aureole of granitoid batholiths (Altai region, U.S.S.R.) (R.M. Slobodskoy) 447
The minimum strain ellipsoid using deformed quartz veins (C.J. Talbot) . 47

Yugoslavia
Correlation between neotectonics and the seismicity of Macedonia (M. Arsovsky and D. Hadžievsky) 129
